I’ll Bet You Thought This Year Would NEVER End!!!

If you think there’s a lot of pictures here, just wait ’till you look inside!
DEAR READERS,

...as the year comes to a close, we take the time to reflect on everything which has occurred in our lives during this school year. We remember the tests, the teachers, the projects, the parties, we remember other classmates and the fun, or the fights, we've had. We remember the closed bells in tents, the moos in October, and the scratched balls in pool.

It is time when we ask ourselves whether we have done all that we've done to the best of our ability; whether we have made the proper contributions to our school, our friends, and our lives.

Recently, an "alternative newspaper" in the Bear Facts was released in our school. It is apparent from the articles in this publication that the schoolboard of this "alternative newspaper" are less than even semi-satisfied with the paper itself. They seem to feel the instructors are so worthless they should be demonstrated a 'profile': practically the only worthwhile cause. "History of Science," is due to be cancelled because of lack of interest for could it really be because it was put in a time slot opposite several required courses in biology, English, Drama, Literature, Math, Physical Sciences, Psychology, and the Secretarial studies? The curriculum needs adjusting; our time-table and curricula order the above "factories" status in this school and, alas, the Bear Facts has been deficient in reporting those things important to the lives of our student body. We are sorry if you have been "insulted" with the trivial topic matter we have taken for you to read. Perhaps we should have covered the "unplanned activity issue," if it has a less schedule, and the distinctions with the special treatment traveling athletes received, and we would have, if anyone had bothered to tune the time out of his busy day to write a letter to the editor, or submit an article for publication (there seems to be a general misunderstanding about schools that have to be on the staff to contribute to this paper—this is not true, never has been true, and never will be true).

We find it sad, in this day of shortness of every thing from paper to gas, that so much money was expended in the production of a separate publication when so much more could have been accomplished by coding the staff of the Bear Facts with worthwhile ideas for articles. We would have more than welcomed their contributions.

A smaller point to consider is that the Bear Facts is read (and taken more seriously) by more people in the administrative division of our school than any under, second production would be. Since it appears that most of the problems are, as they are experienced by this school, can be ultimately solved by the administration, it is only reasonable to assign the "official" school newspaper its due injustices to the attention of the people in charge.

It is unfortunate that those people who are so angry with this school had to wait until the end of the year to come out of hiding. If they would have even attempted to consult with the staff of the Facts, more people could have been reached and better results expected. As it is, there won't be another paper printed until September, and most of what has happened this year will be considered ancient history. It is the sincere hope of the editors that those of us in the student body, whether we are on the staff or not, will remember that the Bear Facts is our paper, and that we as students have a right to be heard. If our voices are heard, the administration will consider the special treatment traveling athletes receive, and we would have, if anyone had bothered to tune the time out of his busy day...

Sincerely,

Memories...
