Some students at DMACC may be considering a transfer to the University of Northern Iowa in Cedar Falls after school work on the Boone Campus.

Those of you considering becoming Panthers should be aware of some changes in requirements for admission.

According to a letter from the Office of Admissions at UNI, the Faculty Senate approved the changes effective for students who graduate from high school in the spring of 1984 and seek admission to the university for summer and fall of 1984.

In addition the change affects transfer students.

That part of the senate requirement states "Students transferring to the University of Northern Iowa before earning credit in English and or mathematics will be included in the policies outlined. Students with college level credit in English composition and or mathematics will be released from individual subject restrictions."

According to the letter from Gordy Scoles,

assistant director of admissions, this policy has been interpreted to mean that only English and or mathematics credit that UNI accepts as transfer credit will satisfy the requirements. Remedial or non-credit courses not taken at UNI will not meet the new requirements.

The English and math requirements are three years of English of which at least one year is identified as composition. Only credits in which a grade of C or better was earned apply toward the requirement. For math the requirement is three years of which at least one year must be algebra and in which a grade of C or better was earned.

Students failing to meet the minimum standards may be released from academic restrictions by giving evidence of a 25 in English on the ACT test or a 70 or above on the College Level Examination Program. For math the minimum is 26 on the ACT or 50 and above on the CLEP test for College Algebra-Trigonometry.

TANK

Tank is a bomb. James Garner as a career Army man and Shirley Jones as his wife have sunk beneath their usual standards with this one. Even C. Thomas Howell, a relatively new actor, has sunk from previous films (E.T. and The Outsiders). The film gets its name from Garner's use of a W.W.II. Sherman tank to free his son from jail. Not a good buy.★†

SPLASH

Splash is a very entertaining film about a love affair between a New York produce seller and a (are you ready for this?) mermaid. Tom Hanks is adorable as the confused, love-sick man who can't understand why his "foriegn" girlfriend won't tell him her secret. This humouous movie is also heart-touching as you watch their love grow and their final decision. This movie is an entertaining evening.★★★

Ranking the records

By Brian Bertini

Scorpions-Love at First Sting

Finally, after an excruciating whole year, they have released a follow up to their gold album. Blackout. This new album is indeed traditional, heavy metal Scorpions sound with Rocks You Like a Hurricane, Big City Nights, and Bad Boys Running Wild headlining the album. The Klausmeine voice combined with the powerful Matthias Sabs-Rudolph Schenker guitar combo is a must for heavy metal fans.

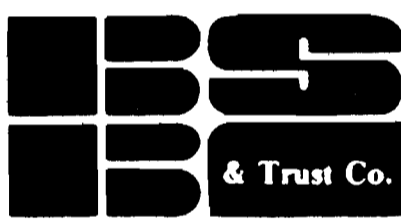

★★★★

April Wine - Animal Grace - You might remember this band from their 1981 album Nature of the Beast. Since then, however, radio stations have ignored their last two alubums, but die-hard April wine listeners will buy this one too. This album doesn't have the sharp sounds the Beast album does, but it's more inventive. This could be the right one: Money Talks and Hard Rock Kid could receive air play, but a lot depends on the listeners. The band is using a lot more synthesizers this time around. Don't expect too much.★★

Saxon - Crusader - Crunching heavy metal. This relatively unknown band has opened for some famous acts like ACID, Black Sabbath, and Rainbow, but this English band, while popular in Europe, has been ignored by American rockers. Songs include "Rock City", "Crusader", and their ballad, "Just Let Me Rock", will probably not get much airplay. They are now in the process of touring Canada and the eastern U.S.★★★

Dwight Twilley-Jungle - Dwight Twilley has been in the music business for some time, although you'd never know he was singing. Together with comrad Tom Petty, plus dozens of other musicians,he has produced a commendable debut album with songs like "Girls," "Break my Heart", and "Little Bit of Love." Airplay will definitely help this album.★★★

As the summer approaches many college students will be looking for a good bar to go to. I decided to check out a few for college crowds looking for a good time in the area.

The rating system is based on:
Only if you're really drunk

Worth a drink

Good bar

DES MOINES

Rolls Royce - This is a big bar with either a D.J. or a band. The cover charge is \$2. It has one big bar inside and is capable of holding a thousand people, and it does on weekends.

Grapes and Grains - This has the AIB crowd which usually includes more women than men. No cover charge.

Porky's - I never thought much of the place. Usually a cover charge on weekends.

Hard Times East - An expensive bar with lots of people. One dollar cover.

Lucky Lady - This is probably the biggest bar. Be sure to dress up. This bar has a split level floor with eight bars inside. Cover charge is \$2.

ANKENY

The Distillery - The largest bar in Ankeny has lots of people but the music is usually country. Still a good bar. When there is a band, cover is \$2.

AMES

Grand Daddys - This is the largest bar in Ames. It is usually full of people and the cover is usually a dollar.

Top of the Town - A nice little bar to relax and enjoy the music. Usually no cover charge.

The Brewery - This is a country music bar with a cover charge of a dollar with a D.J. and \$2 when there is a band.

The Copper Dollar - Lots of pool tables with no atmosphere.

The Murphy's Law - One of the better bars in Ames. Usually has a band.

FORT DODGE

The Runway - This bar is full of people with an excellent dance floor. Usually a dollar cover charge.

The American Tap - This bar has lots of good cheap beer and lots of barroom brawls.

The Thirsty Cactus - Nice little bar with a good atmosphere. Usually no cover charge.

CARROLL

Fifth Street Station - Always has a live band with a dollar cover charge. Usually a comfortable crowd.

Dancing Lounge - The most crowded bar in Carroll with a cover charge of a dollar. Three bars are inside the main building. Lots of people.

Brothers - Always has a live band but usually attracts the older crowd in their late 30s.

Ossey's - This is one of the best strip joints in the state. It has a good clean atmosphere with a nice dance floor, and good quality shakers.

CEDAR FALLS

The Stein - Lots of nice looking UNI women. Good bar to meet people.

STORM LAKE

The Rodeo - Lots of Buena Visa women. Big dance floor, big crowds.

BOONE

Lynn's Lounge - This is a really small bar with one pool table. One good thing about it is a free keg Tuesdays and Thursdays.

My Place Lounge - Decent atmosphere but sometimes an unpredictable crowd. One fault is a really small dance floor.

Kate Shelley Lounge - The best bar in Boone. The finest dance floor in Boone and a good variety of music. Sometimes a dollar cover charge.

O'Briens - Good hospitality, but very small. No pool table.

The best bar reviewed would have to be The Lucky Lady in Des Moines. So, go out enjoy yourself. But, if you get to enjoying yourself too much, let someone else drive you home. Good luck and have a great summer.
