DMACC graduation May 7

By DEE LOVE  
Staff Writer

The time for graduation ceremonies will soon be upon us, have you applied for graduation yet? If not, please contact the office, as soon as possible.

"There are approximately 245 students that will graduate on Thurs-

day, May 7," Rich Finnestad said. Each graduate should be in the front

lobby of DMACC at 9 a.m. to get their cap and gown; commencement

will be at 10 a.m., in the gymnasium.

The guest speaker this year will be Dr. Wayne E. Rouse, President of

The Campus Foundation.

Graduation Breakfast

George Silverhorn said there is a graduation breakfast being served at

the Boone Elks Lodge at 7:30 a.m. Alumni Chris Meyers, from the class

of 1974, will be the speaker. Meyers is the Principal of Colosco

Elementary Schools.

So make sure to sign up for your

self and a guest in the front office.

Graduation Announcements

Graduates are reminded that graduation announcements are available

in the Boone Campus Bookstore.

Inserts will be in April 1, according to Doris Wickman, Bookstore

manager.

The cost is $7.50 apiece or you may purchase a package of 10 for $7.

Students may also pick up a brochure for a class ring.

GOOD LUCK GRADUATES!

We at The Bear Facts want to wish each of you the best for the future!

Films

By JEFF CRAIGMILE  
Staff Writer

Boone Campus students are invited to view the movies being

shown as part of the Humanities 133 America in the Movies class, free of

charge.

Do The Right Thing will be shown in the theater on April 15 at 7:15 p.m.

It is the Spike Lee trend-setting commentary of the 1980s. It is a

multicultural clash among blacks, Italians, whites and orientals. It also

faces the gender gap. It is a fast paced emotional film. If you haven't seen

this movie yet, don't miss this chance! It is, however, rated R.

Steel Magnolias will be shown on April 22 in the usual meeting place.

This is truly a woman's film. It shows women interacting at various stages

of growth. It features many award winning actresses such as Dolly

Parton, Shirley McClaine, Julia Roberts, Sally Fields and many others.

The few men in this movie include Tom Skerrit and Sam Shepard. It is rated PG.

Students hear German scholars

By CHAD ELSBERRY  
Staff Writer

Last month the Boone Campus hosted two German scholars as part of

Germany year activities. Scholars Joachim (Yogi) Reppmann and Gerd

Stolz were on campus Thursday, March 12.

The main event for students was a forum held in the auditorium from 9

to 11 a.m. During this time many topics including Germany's reunification

and its role in our changing world were discussed.

Reppmann and Stolz explained the circumstances surrounding the
collapse of the "wall," and the role played by the citizens through dem-

onstrations involving 300,000 to 500,000 people. Both expressed that it was

the "will" of the people in both East and West Germany which helped to

bring about the changes.

The reunification process will not be complete for several more years.
The 40 years of separation along with the communist influence in the East

were noted as key problems which will take time to overcome.

Another subject which was eventually raised by an audience member
dealt with German militarism and the Neo-Nazi movement. Both scholars

understood the sensitivity of the subject and why many are concerned with

it.

However, Yogi Reppmann went on to point out the size of this movement

is very small. In fact, less than one percent of the population identifies

themselves with this group. In addition, the American media was cited as

being perhaps a little sensationalistic when dealing with this issue.

Reppmann also responded to questions about relations between leading

world powers. Specifically, he stated that future large scale wars such as

WWII would be unlikely, especially in Europe, because international

companies have holdings which would be jeopardized.

The two scholars also made available a number of informative pamphlets. The pamphlets covered German politics, the different German

regions, and the relationship between Germany and the U.S.

The visit by the scholars was a unique opportunity for students, faculty

and staff to learn more about Germany and its position in the world.

As part of DMACC's Germany Week, visiting professor Heinrich Bort-

feldt, Stanford University, spoke on campus April 7 (after deadline). We'll

bring you a followup in our next issue.
Flowers are the true sign of the spring season, such as this traditional daisy. The weather is undeterminable and the smells of a new season are on the rise. I believe that it’s a signal of the birth of a new land, the replenishment of life. We can all relate with the feeling of love and understand the meaning of beauty that accompanies the season. When I think of the time of year I like the most, it by far has to be spring. If you asked why, I would probably have to say, “Because of the way the lands dominancy becomes alive and the way people find new love.” I guess I’m just like a lot of people, when I use the robins as the first sign of spring. I believe that spring is really here when I see the bulb flowers (such as tulip, daffodils and hyacinths). Ancient people of this land believe that the spirit sleeps during the winter and is again born in the spring. To the natives of this great land the revitalization of this soil is more than a must, it’s a tradition. Maybe we should think of them when we consider throwing that can or piece of paper out the window. This land in which we live as the ability to give our children children the same beauty and tranquility we have experienced for 200 years or more. So remember that it takes all of us, not just the factories to help keep our land the way it was meant to be and to make sure that “spring, is a time of new beginnings.”

More blacks hold college degrees

WASHINGTON (CPS)—The percentage of the nation’s black population completing four or more years of college is increasing steadily, according to a report released by the Commerce Department’s Census Bureau.

The proportion of blacks age 25 and over who hold a college degree rose from 10.7 percent in 1987 to 11.8 percent in 1989. The proportion who were high school graduates in 1989 was 64.6 percent, higher than the 1985 rate.

IRIS: Scholarship Money May Be Taxed

WASHINGTON (CPS)—As the April 15 tax deadline approaches, the Internal Revenue Service reminds students that their scholarship money may be considered taxable income.

Any scholarship money applied by a student to room, board or travel expenses—when the scholarship is above a certain minimum—has been considered taxable income since 1987.

According to the IRS, any student who is claimed as a dependent on his or her parents’ tax return must pay taxes if they make more than $3,400, including scholarship money or financial aid applied to room, board or travel. If a student is not claimed by his or her parents, the income is not taxable unless it exceeds $5,500. That amount also includes scholarship money or financial aid applied to room, board or travel.

Any scholarship money used for books, supplies and tuition is still tax-free. The IRS says students who don’t claim their scholarship money on their tax returns and are caught are subject to pay the tax due plus a penalty of up to 25 percent of the unpaid amount.

The Gender Gap

By AMY GOODRICH
Staff Writer

There is still a gender gap present in today’s colleges, according to a report released by the American Association of University Women in February.

Even though there is still an increasing gender gap in the sciences, the math gender gap is small and declining. The gender gap can said be as being reversed in math classes.

An article from the Des Moines Register concluded that although boys and girls enter school with the same abilities, twelve years later the girls will have fallen behind in math, science, self-confidence and self-esteem. A recent study also showed how the students were treated differently. It said that when boys call out an answer in class, the teacher listens and responds to it. However, when a girl said an answer aloud, she was asked to raise her hand if she wanted to speak.

John Doran, the head of the math department here at DMACC, said that he still sees more males than females in trigonometry, precalculus and calculus. The business math classes however are about half and half.

Kirsten Ertekin, a student, here at DMACC, is going to transfer over to Iowa State to major in computer engineering. She feels as though she will be a minority in her 300-400 level math courses. When asked if she feels like there will be extra pressure on her, she responded, “If you want to do something, then do it. Don’t let society tell you anything different. If a woman feels like studying in engineering or other ‘male’ dominated majors, then do it and don’t fear it — there is no need to!”

Larry Ford, transfer student from NWMS, said that back in his math classes there were more women than men, a 3-1 ratio. “I felt that the study done by the AAUW was biased since no men participated at all.”

Brett Landon, DMACC student, had this to say about the article. “In my opinion, there could be some truth in this AAUW survey, but it’s so abbreviated and full of holes that it lacks credibility. I see more men in math classes, but as for the sciences, my anatomy class has more women than men. If the article had been written by the American Education Association or any other non-female organization, it would carry more weight. As it is right now, it’s just a gathered, written and reported opinion by a female organization.”

Got a gripe?

Is something really buging you? Why not tell us about it. Submit your Letter to the Editor to the Bear Facts mailbox. Please include your name and major area of study and please, don’t forget to sign it.

How should DMACC improve itself?

By CHERYL LINGELBACH
Staff Writer

Several Boone Campus students were recently asked, “As the spring semester draws to an end, what could DMACC-Boone Campus do to improve itself for next school year?”

Here are their responses:

Bill Shildes: The library seems to be outdated in the area of the books, but the magazine section is good. Also they should offer a course in Japanese language. They would probably get lots of ISU students since they (ISU) doesn’t offer it either.

Teresa Wren: More computers that work. A lot of time and energy can be wasted. I lost a whole story the other day even though I had saved the work every 10 minutes as I was told to do. Even a teacher couldn’t retrieve it so three hours were wasted.

Dee Love: More computers with more time to be able to work on them.

Dave Redix: Adding on to existing building’s space, more computers.

Gail Hilt: More computer lab time. They look themselves too full this semester.

Julie Sutherland: More computer lab time.

Ruth Evans: More computer lab time.

Fred Eyanson: Serve beer in the cafeteria.

Pat Tjelland: Be more selective on part-time instructors.

Gary Hill: More student housing.

Michelle Clark: Better parking and move the smoking room.

Rhonda Ratashak: More room in campus center.

Jennifer Anderson: More smoking room outside.

Jeff Bergman: I would add on to the building and build dorms.

Theresa Riker: Add on to the building and relocate the smoking room.
Environment

Not to complain...

By JEFF CRAIGMILE
Staff Writer

Since this is an election year, people are showing up everywhere with a cause to promote. It seems that one of the pertinent issues is the environment. For the last few years more and more environmental issues are showing up ever time we open the Sunday paper to Saturday morning cartoons.

Some would have us move into a commune because our modern lifestyle is destroying our surroundings. However, I think that a number of these same individuals would find life rather unpleasant without their appliances, cars and waste disposed of. I think it is useful in dealing with this problem, as we need to see our past errors. Foresight will lead us out and more environmental issues are common because our modern lifestyles rather unpleasant with non-environmentalists.

Coat, although getting better environmentally, still causes pollution, acid rain and is limited supply as well. Wood? On No! We can’t use wood. Think of all the re-planting we will have to do if we are to plant more trees and grow trees faster. Nuclear power is the most caustic power source for obvious reasons. We are using it to save the environment, to save the earth.

With all of the options narrowed, it’s a good idea to consider alternatives. Solar power is terribly under-developed. Geothermal faces the same dilemma.

Automobiles seem to be a big hassle. Other countries are charging a lot more per litre at the gas pump that would make most of us drool with jealousy. Electric cars have been invented. If and when these catch on in America, there will be several problems in the consumer market. The demand on power plants will be greater. Oil companies will be disgruntled. Electricity bills will increase. And to top it all off, electric cars are difficult to repair if damaged and range out much shorter than the current gas guzzlers. However, it is a great opportunity for U.S. auto manufacturers to capitalize on a new market.

Three things are needed to get results in the environment. First is the need for political clout. Starting with influential individuals working up to major corporations and Congress. Once on a national level, things will need to reform on an international level. Any improvement on any level is going to be difficult to enforce. Many of our industries are looking to the U.S. to set the standard. In the United States, if we don’t enforce, it is just as if we didn’t care about the environment.

As Earth Day 1992 approaches, college students and universities are looking toward promoting their environmental science curriculums and student research projects, as well as daily campus events and lectures throughout the week.

For example, in 1991 at Clark University in Worcester, Mass., the school founded the George Perkins Marsh Institute, the nation’s first university research center devoted to studying the human causes of environmental change and the global responses.

The institute includes a Center for Technology, Environment and Development; a Center for Land, Water and Society; a Center for Global Urban Studies; and the Clark Labs for Cartographic Technology and Geographic Analysis. At Hobart and William Smith Colleges in Geneva, N.Y., several geoscience students are working at various sites across the state to study environmental and geological conditions.

One group is studying the effects of chemical waste believed to be seeping into Seneca Lake from a landfill in the nearby town of Dix. The local community hopes that the students can determine whether toxic chemicals were doused at the landfill, which has been closed since 1981 after runoff waste was discovered leaking into a popular fishing stream.

A second group is examining the spread of an industrial chemical through the town of LeRoy’s water table following a 1970 train derailment that caused 30,000 gallons of trichloroethylene to spill. The chemical, which attacks the central nervous system, was washed away rather than properly contained and vacuumed.

At the University of La Verne in California, the school recently established a major, Environmental Management, designed particularly for business students who will soon be dealing with environmental issues at a rapidly increasing pace.

Just do it!

By AMY GOODRICH
Staff Writer

Each year, a leading fast-food restaurant chain generates enough non-biodegradable foam packaging to cover Washington, D.C. with a foot-deep layer.

What can you do? Ask for paper packaging.

On the average, a single car adds its weight in carbon to the atmosphere each year.

What can you do? Use biodegradable and reusable products whenever possible and RECYCLE!

An energy-efficient fluorescent light bulb uses one-quarter the energy of a standard incandescent bulb.

What can you do? Ask local stores to stock store fluorescent bulbs.

If every household in America switched to the most energy-efficient refrigerator, we’d eliminate the need for 12 power plants.

What can you do? Look for energy-efficient appliances.

Summer term classes begin.

Fun facts!!

By AMY GOODRICH
Staff Writer

The 1991 edition of the Guinness Book of World Records has many interesting facts that often go unnoticed. Here are a few that caught my attention:

Tallest Bar: Found in Humperdink's Seafood and Steakhouse in Dallas, Texas. It holds over 1,000 bottles while the top shelf alone must be reached by using a library-type ladder and then walking out onto a balcony.

Longest Looping Roller Coaster: "The Beast" at Kings Island near Cincinnati, Ohio. It is 1.4 miles long with 800 ft. of tunnels. Its top speed is 67.77 miles per hour.

Largest Looping Roller Coaster: "Viper" at Six Flags Magic Mountain, Valencia, CA. The highest point of the loop goes 188 ft. above the ground. This ride reaches a speed of 70 miles per hour and also has seven other loops.

Kissing: Eddie Levin and Delphine Crite broke the record for the longest kiss on September 24, 1984. Their kiss lasted 17 days, 10 hours and 54 minutes.

Laundry: The greatest quantity of laundry washed in a 9 hour work day was 140,204 lbs. by the staff at Central Linen Service, Kilkenny, South Australia.

Magic: Eldon D. Wigton performed 118 different magic tricks in 2 minutes at Kilbourne, Ohio.

DES MOINES AREA COMMUNITY COLLEGE
FINAL EXAM SCHEDULE
SPRING 1991-1992 SY

All instructors in all programs are requested to follow this schedule. Any deviations should be approved through the appropriate department/campus dean. Instructors should consult department/campus deans if their classes do not appear to be recognized on this schedule.

Silence of the Lambs dominate the Oscars

By JEFF CRAIGMILE

Silence of the Lambs grabbed five Oscars, while Terminator 2: Judgement Day took four technical awards. If it hadn’t been for some of the other award winners, the whole thing would probably have gone down as the biggest snoozer in Oscar history. It was nice to see my favorite movies get awards, but it would have been nice to see a few other (decent) films get mention.

I hope that next year, they do get a different host, not that Billy Crystal isn’t funny, but this year he really had a lot left to be desired as a host. Although the humor about Jack Palance was funny for the first 5 minutes, it lost appeal when being ground into the ceremonies for the rest of the evening. There aren’t many actors in the Palance around any more and we should learn to appreciate his style and ability more.

The awards went as follows:

Best Picture: Silence of the Lambs

Actress: Jodie Foster, Silence of the Lambs

Director: Jonathan Demme, Silence of the Lambs

Actor: Anthony Hopkins, Silence of the Lambs

Supporting Actor: Palance in Best Supporting Actor.

Supporting Actress: Mercedes Ruehl for Best Supporting Actress and. Borders T2.

Warren and Skotak T2.

Ashrnan. nominated for best picture. Although Louise.

Judgement Day took four technical Palance jokes all night long were ate his style and ability more. Oscars was by far the presentation of more and we should learn to appreci- The best moment of this yea&

of the class dicked

Documentary Short Subject: GE

Short Subject. “Boycott GE!” She votes. Let’s hope there are more The quality of actors was, to say the least, stupendous. The script itself was full of a lot of excellent

forced mission to steal three priceless artifacts. Others include Sandra Bernhard and James Coburn. I’m sure they would be better if they’d have been more seri-ous about it.

That’s really where this film died. It’s full of a lot of decencent script, nice conspiracies, good character ideas, and nice weapons. But the characters were a little too corny (bordering on stupid). It also manages to thoroughly insult the Vatican and the CIA. The bulb resembles a Bond villain. The dog thing was funny but poorly timed. Willis was typcast in a role that contained elements much like his character in Die Hard. It was nice to see that he overcame that. Out of all the characters in this movie, his made the most sense.

I hope that a better sequel can be written to this truly bizarre film. To at least videos that I’d highly recommend to rent in these catego-ries are as follows: Nightmare on Elm Street, 1, 2, and 3. Hammerboy Hill, Robocop 1 and 2. Predator and Predator 2. Terminator 2: Judgement Day. Aliens. Phantasm 1 and 2. The Star Wars Saga, especially if you see all three in one sitting. Star Trek 2 and 3. Night of the Living Dead. Full Metal Jacket. Will of the Widow. Should a !!! or a !!! on the scale. Why rent them? Usually because T.V. doesn’t do them justice. A lot of these movies don’t run on cable too often. Editing does a lot of damage both to the plot and the fight/action scenes. Of course, it makes a conservative viewer to watch sci-fi/action/horror films. Most of the above aren’t good for setting a romantic mood or entertain- ing a large party with diversified interests. They really aren’t good if a lot of violence and blood make you want to hurl or if you aren’t tremendous- ly interested by anything hi-tech.

Next issue will have the end of the semester movie bonanza featuring Article 99, Basic Instinct and White

Ruehl, The Fisher King.

Editing: Hustings and Scalia, JPF.

My own personal awards would be given to the following it were possible:

Best Dressed: Rebecca De Mornay (Wow!) Worst Dressed: Gloria S. Borders (S&t and Gary Rydstrom looked like a pair of clones.)

Lamst Speech by an Award Winner: Debra Chasnoff (Accepting the award for Best Documentary Short Subject. “Boycott GE!” She probably shouldn’t use the award to make her political statement.)

Tango and Cash

Stallone and Russell star as Ray Tango and Gabrielle Cash, the two best darn cops that probably ever lived anywhere. And never in any script anywhere have I seen a good script, plot and dialogue more ruined by the overuse of the corny, Norman. I’m not one to complain about a lot of gunfire, but this is the time I didn’t think it was necessary.

The quality of actors was, to say the least, stupendous. The script itself was full of a lot of excellent

lines and witty dialogue. The charac-
State contest was held on March 6 and 7, 1992 at Iowa Wesleyan College in Mount Pleasant, Iowa. Late in the afternoon of March 6 the college was over run with hundreds of students from colleges from all over the state anxious to compete for a chance to go to National contest in July.

The contests started with registration at 4 to 7 p.m. The first contest was scheduled at 5:30 p.m. These contests continued until 8:30 p.m., then there was a general assembly meeting from 8:45 to 10 p.m. After this it was back to the motel room to change for the social from 10 to 12 p.m. This was the time for everyone to take a minute to catch their breaths and say hi to old and new friends. We were furnished with refreshments, games and music. Even the advisors let down their hair and enjoyed themselves. Gary Stasko was interested in the trains as well as the events going on around him and Mary Jane Green was able to catch up on new business as well as get reacquainted with old friends.

On Saturday, March 7 the anxiety started all over again bright and early at 7:15 to 11:30 a.m. Then the officers-elect got their chance, campaigning for their wanted offices. They spent the next two hours showing off their skills in selling themselves to us, their voting public. At 1:30 p.m. the second general session was called to order and the voting began for the offices. The ending for the weekend was an excellent dinner with the presentation of the awards to the lucky winners.

Business Communications—Duanna Vinchattle—fourth place.
Job Interview—Linda Thede—second place.
Salesmanship Presentation—Cheryl Lingelbach—second place.
Support Personnel Typist—Duanna Vinchattle—third place.
DMACC came home with two awards one for one of the largest chapters and we received recognition for getting three businesses to sponsor events.
The installation of the new officers was performed, and the old officers were able to sigh a sigh of relief at finishing a job that they had started so eagerly just a year ago.
As with every event there was a sad moment to the evening as one of our state advisors had decided to resign his office and everyone was very sad to see him leave. Tom Wien er is a wonderful man who has done a lot for PBL. It is going to be very difficult to replace this dynamo of a man.

At the end of the ceremonies everyone said goodbye to friends old and new so they could head home to begin plans for the National Conference in July at Chicago, Ill.

Not only is it scary and sometimes overwhelming but it is a learning experience as well. To be able to go to these conferences and participate in these contests but to know that you have done your best and maybe win a plaque or certificate to show for your efforts is great. For these reporters it was extremely rewarding and will not soon be forgotten.

Even Mary Jane Green, Boone DMACC PBL advisor, and Dan Hilgers, Urban PBL advisor, had time to relax and enjoy a dance.
Cheryl Lingelbach seems all tuckered out.
Time to relax after the grueling competitions.
Wendy Jordson and Lorlle Beatty had fun at the social.
New State President Jennifer Hanna, National President Dave Brakelin and National Secretary Phyllis Tinker.
Joy Heckman, State Parliamentarian presents Duanna Vinchattle with her award.
Sports trivia

By JIM MERRILL and DARREN DOUGLAS

1. Which two U.S. male swimmers have won seven Olympic gold medals?
2. Who is the pitcher that holds the record for the most strike-outs and no hit games?
3. Who holds the record for the best free throw percentage in an NBA career?
4. What college football team has not finished less than third in the last eight years and has won four national championships in that time?
5. Who was the last U.S. woman figure skater to win a gold medal (beside Kristi Yamaguchi) and in what year?

Submit your responses to the Bear Facts mailbox in the main office. Don’t forget to sign and leave some way we can reach you.

The winner of this sports trivia will receive a $5 gift certificate from the Boone Campus Bookstore.

In case of a tie, the closest number of strikeouts and no hits games in question #2 will decide the winner.
NEW HAVEN, Conn. (CPS)—Your relationship with cafeteria sandwiches may be getting stale. Maybe it's time for you to stop seeing other recipes. Remember, love means never having to say you're hungry.

So reads "Tray Gourmet: Be Your Own Chef in the College Cafeteria," a book that promises to make memorable meals out of cafeteria chow.

The 192-page paperback by former Yale University students Larry Berger and Lynn Harris (Lake Isle Press, $10.95) offers simple solutions to ho-hum institutional cooking by relying on the micro-wave, salad bar and condiments.

Harris and Berger, who shared Yale cafeteria meals together since their freshman year, started the book years ago.

"We had a microwave and a big salad bar...and we turned it into an advanced art form," Harris said. "We're the ones who realized that the microwave could really go places."

Since publication, the authors have been deluged with similar recipes from throughout the country. "People will call and say, 'Oh, I do that,' and send us their recipes," Harris said.

A chapter, for example, is devoted to "Multi-Cultural Tuna" featuring a recipe for "Dead White Male Tuna" which consists of "½ bowl of plain tuna fish and one heaping spoon soup of mayonnaise."

By adding soy sauce and chopped green pepper, the recipe converts to "Asian Tuna," and curry and it becomes "Indian Tuna," and Dijon mustard and onions transform "Asian Tuna," add curry and it becomes "Continental Tuna.""Yale grads write cookbook

"Soybean and honey make it into "Asian Tuna," add curry and it becomes "Continental Tuna,"" says Publisher's Weekly.

A second chapter, "Dead White Male Tuna," offers a topping of ketchup, lemon juice, cinnamon, red pepper flakes and "as many drops of tabasco as you dare."

Other recipes in the cleverly illustrated book include Nietzsche's Nachos, Chinese Peanut Pasta, Plato's Pita Pocket, Holy Guacamole, Je Ne Sais Quoi Crepes and Pita Fajitas.

"This thoroughly entertaining book is surprisingly accurate, entirely practical and professionally wrought," says Publisher's Weekly.

Portions of the proceeds of "Tray Gourmet" will go to the Children's Defense Fund. Berger, a Rhodes scholar at Oxford in England, graduated summa cum laude in 1990 from Yale, where he won the undergraduate fiction writing competition.

Harris is also a summa cum laude graduate from Yale and is now a freelance writer. Illustrator Chris Kalb, former graphics editor of the Yale Daily News, graduated from Yale in 1990 with a degree in graphic design.

Students rally against scholarship policy

WASHINGTON (CPS)—About 30 students rallied in protest of the Department of Education's policy on minority scholarships and called on Congress to increase the amount of money available for financial aid programs.

The Rev. Jesse Jackson joined the United States Student Association in a March 9 news conference calling for legislation that would preserve the legal priority of minority scholarships and make Pell Grants an entitlement. "George Bush is playing race politics at a time when the economic recession is most convicive to dividing groups of people and distracting students from the real source of their financial aid problems," said Tajul Shah, president of USSR and a student at Rutgers University.

"In the same way that Bush is dividing middle-class students from the 'neediest students' with his Pell Grant proposals, he is also dividing whites from minorities who 'under-ceiving' get a miniscule amount of race-targeted scholarships."

In December 1991, the Department of Education proposed that universities be prohibited from awarding scholarships based solely on race, March 9 was the last day for public comment on the proposed rule.

Education Secretary Lamar Alexander emphasized that no student who has a scholarship will lose it because of the new policy. He also said that scholarship funds could continue to be used by colleges to attract students if the scholarships are based on a number of factors, such as economic background, geographic location and race.

The primary result of the move will stop predominantly white colleges from offering scholarships based solely on race to encourage enrollment of minorities. Race can still be considered in a scholarship, as long as it is "one factor among several."

About 2 million students receive minority scholarships, but only 45,000 have race-specific scholarships.

According to a statement by USSA, Pell Grants now cover less than 25 percent of college costs, compared with 50 percent in 1980. Despite sharp increases in tuition, grant money for college students continues to dry up.

The Senate recently approved a major expansion of student aid, but dropped a provision that would convert Pell Grants into an entitlement. The House has not yet approved its version of the Higher Education Reauthorization Act. As an entitlement, Pell Grants would receive automatic funding and avoid the annual appropriations process that often leaves the program short of its authorized funding level.
Scholarship news

Here is a listing of some scholarships for which Boone Campus students may qualify.

Orville Redenbacher Scholarship
Orville Redenbacher's Second Start Scholarship Program is available for the 1992-1993 school year. To be eligible for this scholarship, students must be 30 years old or older at the time of application; be enrolled or will be enrolled in a degree program; be either a full-time or part-time student; and attend an accredited college or university. All applications must be postmarked by May 1, 1992.

United Blind Scholarship
The Des Moines Chapter Iowa Council of the United Blind is offering a $750 special needs scholarship for the 1992-1993 school year. The program is open to any post-secondary, full-time, blind Iowa student who expects to be involved in a training program during the 1992-1993 school year. All applications should be submitted no later than April 15.

American Legion Foundation Grant
Information concerning the American Legion of Iowa Foundation Grant is available. The deadline for these applications is April 15, 1992.

For additional information, see Chris Carney in the Boone Campus Financial Aid Office.

Transfer Scholarships
The Iowa State University of Technology is offering scholarships to transfer students from community colleges having transferable and applicable core course work of at least 15 hours with the following cumulative GPA: $4000 - 3.75 or better, $3000 - 3.5 to 3.74, $2000 - 3.25 to 3.49, or $4000 - 3.75 or better. Applications are available in the Financial Aid Office.

Foreign Study Scholarships
Applications for the 1993-94 Rotary Foundation Scholarships are now available from the Des Moines Rotary Club. This scholarship will be awarded for one year of foreign study and will average $20,000. Applicants must have completed two years of college and be between the ages of 18 and 24. Requests for formal applications should be submitted by April 30 to the following:

Des Moines Rotary Club, 1000 Walnut, Room 300, Des Moines, IA 50309, (515) 244-6028.

The position and importance in time was truly unclear, but the places and the people who existed and lived there were as true as the armor that they wore; and as committed and strong as the hearts that beat in their chests to what they believed to be right.

Down the main hall from the entrance to the kingdom and through the great arch was the Silver People's Place. It was a large room with many round tables and chairs to accommodate the needs of the Silver People, who sat around them polishing each other with words of great deeds and praise of all kinds.

Of course, nobody is totally perfect regardless of who they may represent, including myself. My apologies to someone who feels they may have been left out. But it is good to know that not all students, as they do, are active in the things going on around them, arranging themselves with sex, alcohol or other activities. All athletes are not brainless, arrogant, womanizing, party-minded and physically talented.

Thank God.

A friend recently asked, “Why try to make a difference? You’re not going to be here much longer and bring it...”

I guess my response is that I feel it is the duty of any public figure to make a difference. We are role models as well as athletes, entertainers and newspaper reporters. It is up to us and politicians to make a difference. We own it to leave positive changes behind with our own legacies at this institution and any other in which we have trodden.

All that I can do is be my best to make a difference for all it is worth. I just wish there had been a stirring among the student body over a certain artifactual concern. We are role models, in which we have trodden.

Larry Hughes were helpful in reshaping some of my personal opinions of the athletic department and some of its members.

However, this speck of dust will continue to attempt to make a difference in this world.

None of the above?

By CHAD ELSBERRY

Staff Writer

The frenzy of politics in America is stirring up in this election year. However, the results so far do not seem promising. It appears the general election will see a Bush vs. Clinton showdown.

The main point of an election is to give the differing candidates their messages to the people to choose the best person. The candidates will have to clearly define themselves and their beliefs.

How will they do this?

They will try to make their ideas appealing to the American forum. Yes, they will turn to TV, campaign commercials, and negative advertising. Reporting how informing the story of Horton commercials of 1988 were?

The US is facing the negative ads of 1988 will pale in comparison to what we’re going to see for the next few months. Clinton has already taken excessive punishment blows in the primaries, and they’ve come from people who will support him in the general election. I can’t even imagine what the Bush campaign commercials will be. Of course, some people believe Bill Clinton’s perceived shortcomings aren’t valid issues. But character is always an issue.

I bet the leaders of the Democratic party are beating themselves over the head. If not, they should be. Many prominent Democrats stayed out of the race thinking Bush was unbeatable. It’s likely they fulfilled the prophecy through their own inaction.

On the other hand, the Clinton strategists will have plenty of ammunition of their own. Things like “read my lips,” Bush’s lack of leadership at home, and the S&L situation will certainly be in Clinton’s gun belt. These factors all point to a good mud slinging match. In addition, it also means many Americans will be turned off by politics. It’s hard to get enthused over the “process” when these are the results.

Let’s hope it will happen, and a candidate with a message and purpose will ignite the masses. I wouldn’t count on it, but anything is possible. Unfortunately, we have to deal with what’s probable and for now the probable points to Bush-vs-Clinton.

COMMENATORY

Craigmile’s Corner #3

More concerns...

I had noticed, a few days after the last issue of the Bear Facts appeared, that there had been a stirring among the student body over a certain article. I spotted Ken Mueller, speech teacher, holding a photocopy of this paper with the one sentence that Kay wasn’t the only one. Someone was saying that he had signed his handiwork. (good or bad) get a mention some other issue of the Bear Facts.

Kay wasn’t the only one. Someone changes behind with our own legislation. I wish though, that a difference for all it is worth. I just wish there had been a stirring among the student body over a certain artifactual concern. We are role models, in which we have trodden.

Larry Hughes were helpful in reshaping some of my personal opinions of the athletic department and some of its members.

However, this speck of dust will continue to attempt to make a difference in this world.

Reader comments

on self-defense class

Dear editor,

Recently I had the opportunity to participate in a self-defense class taught by Heartland Health Center’s very talented instructor of TaeKwon-Do, Keith Romp. With him were two dedicated instructors, Tovy Kassa and Jennifer Emery.

I am twenty-nine years old and real hard had no immediate need to learn self defense. I work days, I’m out not much at night without my husband, and I don’t associate with men at parties who I don’t know. But I signed up for the class out of curiosity and to support a co-worker who wished to participate.

After three hours of kicking, flipping, throwing, rolling, punching and kicking in the school or college student who is type was wished that I had taken this course prior to going to college 10 years ago.

I was impressed with the girls in the class who were high school and had taken the initiative to prepare themselves for the reality (and often unspoken part of) college life.

Many people may think that assault and rape is certainly something that does not happen in small-town, Boone, Iowa. But it is “out there” and Mr. Romp and his associates have taken it upon themselves to prepare women in case of attack.

The instructors took an awful beating in the class, and girls who participated. They were straightforward about the brutality of sexual assault and told us “beat up on us and be prepared” instead of being caught in a terrible situation and not know what to do.

I would highly recommend Heart-land’s self-defense class to any high school or college student who is concerned about her future. Even women my age or older who may live alone or have children they would like to protect would be interested in it.

Dear editor,

I have been working on the SAB in order to justify allocation of funding for the 1992-93 up coming year and have been unable to sleep. Not so much that each department cannot receive all they ask for, that’s under- show. But because of the SAB over stepping their bounds and getting the clubs angered, I’d like to apologize to those. If I miss anyone please forgive me, I’m human!

PBL for taking over homecoming when it was the PBL’s baby for the last few years.

NSU for blood drive, as nursing is my major. I have my internship in Boone--I can’t没 more to go around, but we can’t go around ginning for another student when needs are the same for all.

My intentions were intended to raise a few eyebrows and draw attention to the fact that some of these students can’t or need to clean up their acts a bit. (Aside from my personal experiences, a set of photos of a private Homecoming party came to my attention.)

Not all athletes (and for that matter students), are “partying maniacs.” Several student athletes stick out as being good examples: Dana Scott, Regis Maron, James Heinze, Brent and Adam Krug and a majority of the women involved with sports here have their acts together.
Now’s the time to think about summer registration!

By DEE LOVE
Staff Writer

If you’re interested in taking classes at Boone Campus this summer, here are some dates for you to remember.

Returning Career Education
April 20-24, 8:30 a.m.-4 p.m.
Monday-Friday
Nursing—ADN and PN, Accounting/Specialist, Bookkeeping/Accounting, Office Management, Clerical, Executive Assistant, Information Word Processor, Administrative Secretary.

Note: Students unable to make first registration date may register any date following.

New Career Education, New Arts, Sciences/General Education
as scheduled by counseling.

Returning Arts and Sciences/General Education
“Early Bird” Registration daily
8:30 a.m.-4 p.m., Monday-Friday.
Here are some dates for you to register via telephone or mail-in July 3-Holiday, Fourth of July.
10:00 a.m., Boone Campus Gym.
May 15—Holidays, Memorial Day.
Office closed.
May 27—Classes begin.

Late Registration
May 27, 29, 1992 and June 1 and 2, 1992

Class Schedule Changes
Accepted at any time after initial registration.
No class schedule changes will be accepted by telephone.

Calendar
May 7—Spring Commencement 10:00 a.m., Boone Campus Gym.
May 25—Holiday, Memorial Day.
Office closed.
May 27—Classes begin.

June 2—Last day to add classes
July 1—Mid-Term Summer Semester.
July 3—Holiday, Fourth of July.
Office closed. No classes.
July 22—Last day to drop or withdraw from classes.
August 6—Last day of classes.
For more information about registration for summer or fall please contact George Silberhorn or Rich part-time students only.

Payment must accompany registration.

Boone Campus will be buying back books, according to Doris Wickman, the Bookstore supervisor, during the following days and times:
- Friday, May 1—8:00 a.m. to 4:00 p.m.
- Monday, May 4—8:00 a.m. to 6:00 p.m.
- Tuesday, May 5—8:00 a.m. to 6:00 p.m.
- Wednesday, May 6—8:00 a.m. to 6:00 p.m.
- Thursday, May 7—8:00 a.m. to 12:00 p.m.

Textbooks eligible for return may be brought to the bookstore during these times. A representative from a wholesale company will also be present to purchase many textbooks which are not on the list below. Prices are based on national demands, condition of the books, and value.

The bookstore will pay 60 percent of the new book price for the books below and daily.

The books are listed by quantity, author, title, edition, publisher, date and buyback amount.

10, Aebi, Data Commun, 5th, Sim, ’91, $15.00.
10, Adler, Look Out/Look In, 6th, Hbj, ’90, $17.25.
60, Adler, Under Human Comm, 4th, Hbj, ’90, $15.00.
65, Axelrod, St. Martin’s Gde Writ, 3rd, Sim, ’90, $15.00.
15, Billstein, Prob Solv Appl Math, 4th, Aw, ’90, $24.00.
3, Danzer, Land and People, Hc, ’84, $23.85.
5, Divine, Amer Past & Pres, 3rd, Hc, ’91, $25.75.
15, Duncan, College Keyboarding, 12th, Sw, ’90, $21.25.
25, Fox, Human Physiology, 3rd, Wcb, ’90, $33.00.
10, Giancoli, Ideas of Physics, 3rd, Hbj, ’86, $31.50.
10, Hyde, Understanding Human Sex, 4th, Mh, $26.40.
15, Jordan, Human Mosaic, 5th, Hc, ’90, $27.75.
5, Kamin, Music An Apprec Be, 4th, Mh, ’90, $16.50.
15, Klimke, Philosophy Basic Iss, 3rd, Stem, ’90.
