It was moved by D. Rowen, seconded by M. Campbell, that the Board President and Superintendent be authorized to negotiate with Educational Service Bureau, Inc., for services for FY77 at a cost not to exceed $600, or to discuss provision of these services from the Iowa Council of School Boards, if an adequate agreement cannot be reached. Motion passed.

It was moved by D. Rowen, seconded by W. Hetzel, that approval be given to expansion of parking lot "J", Ankeny campus, to include an additional 100 parking spaces and for paving of this entire lot, in addition to widening the two lanes of paving from the point where the four lane presently ends to the entrance to parking lot "J", subject to determining that no legalities are violated by a temporary transfer of monies from the general fund to the plant fund, which was reported necessary in order to finance this project during FY77. Motion passed.

It was moved by E. Leonard, seconded by C. Galvin, that approval be given to the proposed procedure for selling student built houses, as amended, a copy of which is attached hereto and made a part of these minutes.

It was moved by D. Rowen, seconded by C. Galvin, that the prior approved procedure for selling student built houses be followed for the sale of the student built house located at 221 Kevin Street, Carroll, Iowa, with an acceptable selling price equal to the exact cost to Des Moines Area Community College plus a realtor’s commission up to six percent. Motion passed.

It was moved by E. Leonard, seconded by C. Galvin, that approval be given to publishing a legal "Notice to Bidders" for a permanent easement to the Des Moines Area Community College campus for the purpose of constructing a bike path, copy of said notice is attached hereto and made a part of these minutes. Motion passed.
RESIGNATION OF JACK ASBY

It was moved by M. Campbell, seconded by C. Galvin, that the resignation of Jack Asby be accepted and that the conditions of said resignation be as follows:

1. The resignation shall be effective November 30, 1976, or sooner, if other full time employment is found.
2. Mr. Asby shall receive a salary of $2,060.83 for each month worked through November 30, 1976, or until such time as the resignation becomes effective.
3. Mr. Asby shall participate in all college provided fringe benefits until such time as resignation is effective.
4. Both parties shall comply with the existing contractual terms until the resignation becomes effective.

Motion passed.

CLAIMS & ACCOUNTS

It was moved by E. Leonard, seconded by D. Rowen, that the claims and accounts, as presented, be approved for payment. Motion passed.

ADJOURNMENT

It was moved by C. Galvin, seconded by M. Campbell, that the meeting be adjourned. Motion passed and the meeting was adjourned at 11:30 p.m. The next regular meeting was set for July 12, 1976, 5:30 p.m., Ankeny campus, Building #31.

IRV STEINBERG, Secretary

SALE OF STUDENT BUILT HOUSES

PROCEDURE

1. The administration shall make an investigation of local real estate brokers to determine which broker would charge the lowest commission for the greatest amount of service under the proposed open commission plan.

2. When the house is nearing completion, the business office will have two appraisals made.

3. The board will then be made aware of estimated construction costs and appraisals, and will establish an acceptable selling price.

4. The local firm willing to sell for the most advantageous percentage commission will then be contacted to list the house and promote the sale.

5. The house shall be listed at the acceptable selling price plus not less than six (6) percent.

6. The commission paid will be open commission. The listing real estate broker shall keep that part of the purchase price over the stated acceptable selling price up to six (6) percent, or a lower percentage figure if such is agreed upon.

7. All legal publications will be printed as required by law.

8. Persons wishing to purchase shall make a sealed bid at a specific date set by the board. The highest and best bid will be selected.

9. The real estate broker will handle the house closing details.
New Procedure for Sale of
Student Built House

Discussion

Section 297.22, power to sell or lease, gives the Board of Directors of any school corporation the right to sell student built houses, subject to sections 297.23 and 297.24 on bidding.

Section 297.23 provides that before selling, the Board must advertise for bids for two consecutive weeks, one insertion each week in a newspaper of general circulation in the district.

Section 297.33 states that between two weeks and six months after the advertisement, the Board may accept a bid, but it can accept only the best bid and may decline to sell if all bids are deemed inadequate.

The above stated provisions require a sale by bid, but do not make dealing through real estate multiple listings unlawful. For this reason the Sheldon plan is within the bounds of the provision. At Sheldon, the Board asks local realtor firms to submit appraisals to the college by a specified date. The house is put in the multiple listing. The Board gives the administration basic guidelines on a minimal acceptable bid. The house is then sold by sealed bids at a specific date and time. The realtor whose client is high bidder is awarded a 2% finders fee. This fee is paid by the college, but is taken into consideration in setting the minimal acceptable bid. The realtor then handles most of the house closing details.

Waterloo uses much the same procedure, but they also accept oral bids at the meeting at which bids will be considered. Attorney Dick Smith indicated that while receiving oral bids at the hearing held pursuant to the notice is not, per se, illegal, it would not be proper to permit this to result in an auction at such hearing. The better procedure would be to require anyone appearing at the hearing to submit a written proposal before any of the bids are opened.

At Waterloo, if the highest bid is still inadequate the Board, through the administration, negotiates with the highest bidder for a settlement satisfactory with the Board. Section 297 gives the Board the right to "decline to sell if the bids received are deemed inadequate". Section 297 does not authorize a sale by negotiations after a sale by bid has proved fruitless, but Dick Smith indicated that negotiation for a higher selling price with the high bidder does not violate the law.

The situation in the Des Moines-Ankeny area is really not comparable to that in Sheldon which is a smaller community with a relatively small number of realtors. By common consent these firms as a public service assist the school in the sale of homes for a very minimal 2% commission. In the Des Moines-Ankeny area we are dealing with a large diversified, much less cohesive group of realtors most of whom do not feel the same allegiance to our institution as the Sheldon realtors as a whole feel toward their College. This makes concerted publicly spirited action much more difficult. Although the Carroll, Boone, and other community realtors may work on this basis we must have one policy upon which we operate or we open ourselves to a charge of favoritism. Each realtor handles the new homes of builders on a 6 or 7% commission. Realtors are leary of handling our sales on less than this amount as they feel it is difficult to defend to other builders.
We were informed that the house could be listed in the multiple listing without going through a realtor. But in that situation there is no real estate representative to "push" the property by advertising, being readily available to answer questions, etc. The Des Moines Independent School System attempted to sell their last home at 6% commission in this manner and such attempt failed miserably. They eventually sold by listing in the multiple through a local realtor at 7%.

In our discussions with Gene Leedum of Lundstrom Realty it was suggested that they might be interested in handling our houses on an open commission basis. We would set an acceptable price. They would list it in the multiple and promote the sale for an amount above our stated price. They would take as a commission that amount which could be realized over and above our stated price up to 6%. They would not receive any monies in excess of 6% of the sale price.

Recommended procedure:

1. Make an investigation of local Realtors to determine which realtor would charge the lowest commission for the greatest amount of service under the proposed open commission plan.

2. When the house is nearing completion, the business office will have two appraisals made.

3. The board will then be made aware of estimated construction costs and appraisals, and will establish an acceptable selling price.

4. All legal publications will be printed as required by law.

5. The local firm willing to sell for the most advantageous percentage commission is contacted to list the house and promote the sale.

6. Those wishing to purchase shall make a sealed bid at a specific date set by the board. The highest and best bid will be selected.

7. The realtor will handle the house closing details.

8. The commission paid will be an open commission. The listing realtor shall keep that part of the purchase price over the stated acceptable selling price up to 6%, or a lower percentage figure if such is agreed upon.

Darlene Falck: Coordinator, Office Occupations. Contract for the month of June in the amount of $1,151.26. This is to fill in for one month while in the process of changing from a 9-month contract to a 12-month contract.
We ran a survey of our parking lot usage the last week of September 1975. That survey showed the highest usage to be on Monday between 9 and 10 A.M., at which time there were 218 empty parking stalls. The past three years we have experienced an increase of approximately 200 vehicles each year utilizing our parking lots. Assuming this trend would continue this coming fall, our lots would be at capacity. There would be no cushion for outside groups coming on to campus. In my judgement this capacity condition would occur only Monday, Wednesday and Friday mornings during approximately the first half of the fall quarter.

Three alternative solutions to the above situation would be as follows:

1. Asphalt existing Lot J plus space for 100 additional vehicles. Estimated cost, $150,000 for the construction of the lot including drainage and lighting, plus $12,000 for engineering services.

2. Provide space for an additional 100 vehicles just west of existing Lot J. This space would be a temporary gravel lot with a minimum of grading performed. Estimated cost, $7,500.

3. Do nothing for this coming fall and recognize that on Monday, Wednesday and Friday we could not accomodate additional groups coming on to campus in the morning. No cost.

Lot J is one of only two remaining gravel lots. It is used primarily by Bldg. #22 people and by some Bldg. #23 people. The use of the lot does warrant an asphalt surface with proper drainage and adequate lighting. We have held off doing this in the past for two reasons. One being lack of funds, and two, being the possibility of a building being located in this area. Our discussion June 2nd ruled out the possibility of a future building and there are possible ways to fund the project.

At the time we apply asphalt to Lot J we should widen the two lanes of paving from the point where the four lane ends to the entrance to Lot J. This is shown on the attached drawing. The present-termination of the four lanes in the middle of "nowhere" has caused some problems for vehicular traffic, especially for strangers on the campus. It would make much more sense to terminate the four lanes at a turnoff to a parking lot.

The availability of school house funds is as follows:

Present commitment of funds and known receipts based upon the new valuation information shows a balance of $150,000.

Additional planned commitments are:

<table>
<thead>
<tr>
<th>Description</th>
<th>Amount</th>
</tr>
</thead>
<tbody>
<tr>
<td>Boone paving</td>
<td>$12,000</td>
</tr>
<tr>
<td>Master landscaping plan</td>
<td>10,000</td>
</tr>
<tr>
<td>Campus graphics</td>
<td>40,000</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td><strong>$62,000</strong></td>
</tr>
<tr>
<td><strong>Balance projected for July 1, 1977</strong></td>
<td>$88,000</td>
</tr>
</tbody>
</table>
This means that the $162,000 expenditure for the asphalt paving of parking Lot J would not be totally available in the current five year school house fund collection period, but would be available in the collection period starting July 1, 1977. If we were to go ahead with the project now, the school house fund would have to borrow money from the general fund to cover the cost. The school house fund would owe the General Fund $74,000 July 1, 1977, based upon the above projection ($162,000 - $88,000 = $74,000).

The long term economics of the situation would dictate that we proceed this summer with the asphalt of Lot J and the expansion of the lot to include the additional 100 spaces. By carrying out the project this summer we would save approximately $7,500 that would be spent for something temporary. Based upon past inflation, we would probably save 10% per year which would amount to $30,000 for the two years we would have to wait for funds "to be in hand". Thus it would cost us approximately $37,500 to wait two years to asphalt the lot.

If we are to proceed with this project in anticipation of having it complete by fall quarter, it is very important that we proceed as soon as possible. Allowing three weeks for plans and specs, three weeks for a bid period, one week for Board action and three weeks for construction, brings us up to September 1. Upon approval of this project, I would proceed immediately with working with Veenstra & Kimm in developing plans and specifications for the project.

If there is additional information needed concerning this situation, please advise.

Minutes of Meeting
Heartland AEA 11 and
Des Moines Area Community
College Boards of Directors
1932 S. W. Third Street
Ankeny, Iowa 50021
June 4, 1976 4:00 P. M.

Representatives from the Des Moines Area Community College and Heartland Area
Education Agency 11 Boards of Directors met in joint session at 4:00 P. M. at Heartland
Offices on June 4, 1976. Superintendent Paul Lowery and Administrator K. W. Miller
were present.

The boards discussed an upcoming Data Processing Report for Area XI which the
two agencies plan to work on jointly. Other matters of mutual concern, including
exchange of information on insurance, the shared use of a tele-a-network and matters
concerning personnel were discussed.

It was moved by DMACC's Chairman Max Kreager, seconded by AEA's Chairman
Dr. Lampshire, that the meeting be adjourned.
