Re: Final Acceptance
Mechanical Construction - Part 2 and Part 4

Gentlemen:

We recommend final acceptance by resolution of the Board for the following contract:

Mechanical Construction Contract: Part 2 and Part 4 - Proctor Plumbing and Heating.

The construction is complete with the exception of the following items:

Part 2

1. Temperature Control - Static Pressure Problems
2. Cooling Tower Door
3. Caulking of Cooling Tower Piping at Bldg. 20
4. Final adjustment of Cooling Tower Fan by manufacturer
5. Miscellaneous final grading to be completed by Sod Contractor
6. Pipe pit debris clean-up - Bldg. 31
7. Touch-up painting of chiller and boiler.

Part 4

1. Balancing and Testing Reports
2. Sound Testing Reports
3. Drain pan leak onto casing floor
4. Maintenance manuals.

We are withholding five thousand dollars from the final payment on Part 2 and ten thousand dollars from the final payment on Part 4 to complete the above items.

As recommended by the Owner's attorney, final payment will be made for the above contract 30 days after acceptance by the Board.

Sincerely,

H. Kennard Bussard, AIA

RE: Background Information on AEA Joint Meeting - September 8, 1975

AEA Board Members and Staff Attending

Dr. Richard Lampshire, president
Dr. William Underhill, vice president
Mr. E. E. Andrews
Mr. Ragan Brock
Mrs. John W. Carr
Mr. Dean R. Cox
Dr. Michael J. Hall
Mr. Ralph I. Lynn
Mr. Donald Vanden Berg
Mr. K. W. Miller, chief administrator
Mrs. Margaret Korshun, board secretary
Mrs. Barbara Purdue, secretary to administrator

Legislative Background

Prior to the establishment of AEA, earlier permissive legislation allowed joint county cooperation for pooling resources to meet special educational needs of elementary and secondary schools. The legislature was concerned with upgrading, therefore it mandated that existing programs be maintained at the same level. The 65th General Assembly passed legislation (SF 1163) creating 15 AEA units co-terminous with area school boundaries, with full implementation July 1, 1975. Area XI has 63 local school districts; 6,560 sq. miles; and over 120,000 public school children. The AEA Board of Directors is separate from the Area College Board, but they are required to meet jointly quarterly. The AEA Board has no taxing authority, and is elected by the local school boards.

AEA Administrator, K. Miller, stated at our November 19, 1974 General Advisory Committee meeting that he hopes for cooperative efforts to increase between the AEA and the area colleges, but that it should be clear that it is the intention of the AEA to complement, not duplicate, educational services. This posture was reaffirmed by the 66th General Assembly in legislation (HF 558) that went beyond the original language of SF 1163, to the effect that the AEA may not provide educational services that area schools are providing or may provide.

LEGISLATIVE MANDATES FOR AREA SCHOOLS AND AEA's

AREA SCHOOLS (280A.)

AEA's (273.2)

It is hereby declared to be the policy of the state of Iowa and the purpose of this chapter to provide for the establishment of not more than seventeen areas which shall include all of the area of the state and which may operate either area vocational schools or area community colleges offering to the greatest extent possible, educational opportunities and services in each of the following, when applicable, but not necessarily limited to:

1. The first two years of college work including preprofessional education.
2. Vocational and technical training
3. Programs for in-service training and retraining of workers.
4. Programs for high school completion for students of post-high school age.
5. Programs for all students of high school age who may best serve themselves by enrolling for vocational and technical training while also enrolled in a local high school, public or private.
6. Student personnel services
7. Community services.
8. Vocational education for persons who have academic, socio-economic, or other handicaps which prevent succeeding in regular vocational education programs.
9. Training, retraining, and all necessary preparation for productive employment of all citizens.
10. Vocational and technical training for persons who are not enrolled in a high school and who have not completed high school.

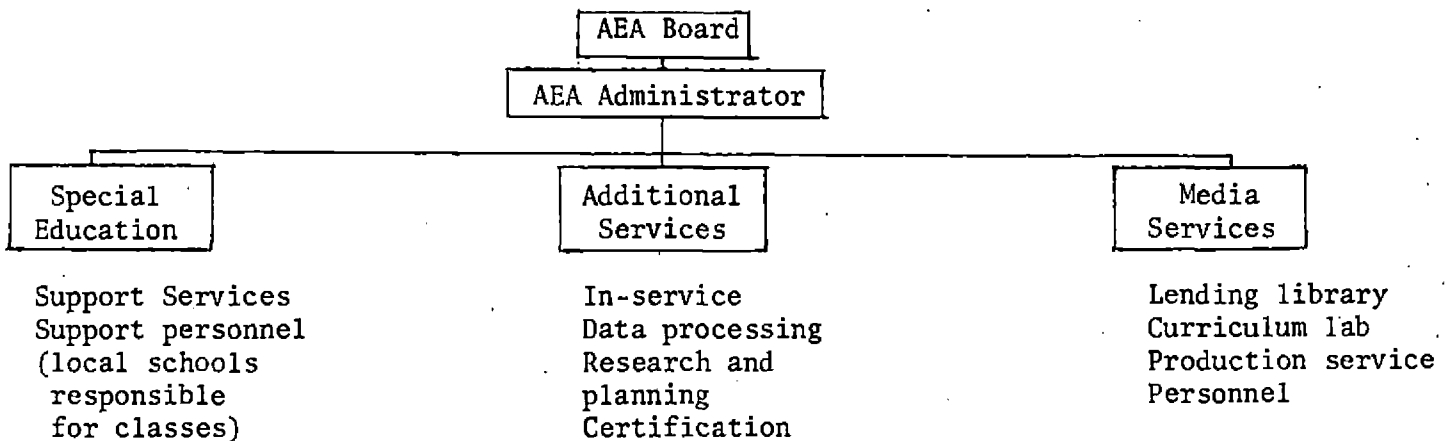

The area education agency board may provide for the following programs and services to local school districts within the limits of funds available:

1. In-service training programs for employees of school districts and area education agencies, provided at the time programs and services are established they do not duplicate programs and services available in that area from the universities under the state board of regents and from other universities and four year institutions of higher education in Iowa.
2. Educational data processing pursuant to section 257.10 subsection 14.
3. Research, demonstration projects and models, and educational planning for children under five years of age through grade twelve and children requiring special education as defined in section 281.2 as approved by the department of public instruction.
4. Auxiliary services for children under five years of age through grade twelve and children requiring special education as defined in section 281.2 as provided by law.
5. Other programs and services for children under five years through grade twelve and children requiring special education as defined in section 281.2 and for employees of school districts and area education agencies as approved by the department of public instruction.

The board of directors of an area education agency shall not establish programs and services which duplicate programs and services provided by the area schools under the provisions of chapter 280A. An area education agency shall contract, whenever practicable, with other school corporations for the use of personnel, buildings, facilities, supplies, equipment, programs, and services.

AEA Organizational Structure and Funding

The present structure calls for three functional administrative areas, with some of the functions listed below:

The structures will be funded as follows:

Special Ed: State general aid, but by weighted basis on enrollment, i.e., the greater the degree of handicapped, the more dollar support.

Additional Services: \$10.00 per pupil, through local property tax.

Media Services: \$5.00 per pupil, through local property tax.

If services are requested by 60% of districts, or by districts containing 60% of enrollment, the AEA is mandated to provide them.

Areas of Cooperation between DMACC and AEA and Local Districts

1. Bus driver training for local district personnel.
2. In-service and resource workshops at DMACC.
3. Career education cooperative programs with high schools: Knoxville - Auto service, electronic trades; Carroll - Auto Service, building trades.
4. Arts and science course offerings in the district, 30 different course sections at 6 attendance centers.
5. Counselor workshops held at DMACC (eg, Mid-Iowa counselors meet monthly).
6. Adult and continuing education offerings at 56 local schools throughout the college district (Area XI).
7. Supplemental classes for industry and local school personnel.

Potential Areas of Cooperation between DMACC, the AEA and Local Schools

1. In-service programming and workshops: In-service programs could be cooperatively planned, both for and by the staff of DMACC and the AEA. This could involve sharing of facilities, as well as expertise.
2. Media services and media production: Our media specialists and the AEA specialists exchange in-service programs in specialized professional areas. Also, some of the DMACC equipment and facilities (eg TV studio) is unique and could be utilized.
3. Data processing and management information: In long-range terms, the potential cooperation and time-sharing with the AEA, universities, and others for hardware and information exchange.
4. Research activities: Combining efforts and sharing data on potential areas of duplication, eg, district population trends, demographics, educational needs, etc.

5. Special Education: While special education for elementary-secondary children is one of the primary tasks of the AEA, DMACC could cooperate through the Adult & Continuing Ed division to assist in sponsoring district-wide classes for parents of handicapped children. Also, DMACC has a developmental disability program, the interns of which could be coordinated through the AEA to the benefit of both organizations.
6. Special Equipment and Services: Similar to our cooperation with Iowa State; share special equipment and services, such as Industrial Arts laboratory setups, day care lab, etc.
